

# Esker Overview

## AI Automation Suite for the Office of the CFO

Esker is the global authority in AI-powered business solutions for the Office of the CFO. Leveraging the latest in automation technologies, Esker's Source-to-Pay and Order-to-Cash solutions optimise working capital and cashflow, enhance decision-making, and drive better collaboration and relationships with customers, suppliers and employees.

### Source-to-pay automation

Esker's Source-to-Pay suite helps Procurement and Finance leaders streamline procurement processes, enforce policy compliance and improve supplier relationships with increased visibility over the entire buying process.

**Sourcing** | Manage and source goods and services from external suppliers efficiently and cost-effectively.

**Supplier Management** | Centralise supplier data and simplify supplier onboarding, while effectively managing compliance and risk.

**Contract Management** | Automate management of contracts via a central repository while driving savings with improved visibility and compliance.

**Procurement** | Transform buying into a customer friendly experience and enforce procurement policy compliance across your business.

**Accounts Payable** | Reduce invoicing costs and delays with AI-driven data capture, touchless processing and electronic workflow.

**Expense Management** | Automate low-value tasks while helping employees get reimbursed quickly.

**Payment & Supply Chain Financing** | Automate payment approval workflow while securing discounts and supporting suppliers that need cash.

### Order-to-cash automation

Esker's Order-to-Cash suite helps businesses elevate their CX and accelerate cash collections and revenue recognition by connecting siloed O2C processes via a centralised and comprehensive digital interface.

**Credit Management** | Secure revenue through an optimised credit approval and risk monitoring process.

**Customer Enquiry Management** | Address requests faster and deliver a better customer experience using AI-assisted classification and replies.

**Order Management** | Process B2B orders electronically – regardless of format – with end-to-end accuracy, visibility and efficiency.

**Invoice Delivery** | Deliver invoices according to customer preferences with 100% e-invoicing compliance in 60+ countries.

**Payment Processing** | Increase your chances of securing on-time, in-full payments with online payment capabilities.

**Cash Application** | Simplify and accelerate cash application thanks to AI-powered remittance management and auto-matching.

**Claims & Deductions** | Quickly resolve all customer claims and efficiently manage deductions and disputed amounts while protecting margins.

**Collections Management** | Collect cash faster and reduce bad debt with AI-based predictions and risk analysis.

## Smart, simple & powerful technologies

### Global cloud platform

Ensure business continuity and end-to-end connectivity with an integrated platform that spans the entire enterprise.

### Artificial intelligence

Optimise document classification, data recognition and validation, generate answers and predictions.
