

About Esker

Esker's AI Automation Suite for the Office of the CFO leverages the latest in Agentic AI and automation technologies to optimize working capital and cashflow, enhance strategic decision-making, and improve relationships with customers, suppliers and employees. Esker's Source-to-Pay and Order-to-Cash solutions automate any business process while supporting long-term growth strategies.

AI that elevates finance operations

Esker Synergy AI is embedded into Esker's end-to-end automation suite to assist teams across source-to-pay (S2P) and order-to-cash (O2C) processes, supporting the Office of the CFO to improve efficiency, increase visibility and reduce errors. Esker Synergy AI Agents assist with decision-making, process optimization and workflow automation in real time. With more than 50 practical use cases, Esker Synergy AI supports consistent, streamlined finance operations.

One suite. Any process. Total control.

Source-to-pay automation

Esker's Source-to-Pay suite provides a unified, end-to-end platform that connects Procurement and Finance, delivering full spend visibility, stronger governance and measurable savings from sourcing through payment.

Sourcing: Manage sourcing activities through structured, competitive processes that improve supplier selection and increase visibility into supplier pricing and award decisions.

Supplier Management: Centralize supplier information to standardize onboarding, maintain compliance documentation and monitor supplier risk on an ongoing basis.

Contract Management: Manage contract lifecycles within a centralized repository to improve visibility into obligations, support compliance and control renewal timelines.

Procurement: Enable disciplined procurement practices for professional buyers while simplifying purchasing for business users, strengthening compliance and increasing visibility into organizational spend.

Accounts Payable: Automate invoice capture, validation and approval workflows to shorten cycle times, reduce administrative workload and improve visibility into outstanding liabilities.

Expense Management: Digitize expense submission and approval processes to ensure policy compliance and timely reimbursement.

Payment & Supply Chain Financing: Automate payment approval workflow while securing discounts and supporting suppliers that need cash.

Order-to-cash automation

Esker's Order-to-Cash suite helps Customer Service and Accounts Receivable leaders elevate their CX and accelerate cash collections and revenue recognition by connecting siloed O2C processes via a centralized and comprehensive digital interface.

Credit Management: Secure revenue through an optimized credit approval and risk monitoring process.

Customer Inquiry Management: Address requests faster and deliver a better customer experience using AI-assisted classification and replies.

Order Management: Process B2B orders electronically — regardless of format — with end to-end accuracy, visibility and efficiency.

Invoice Delivery: Deliver invoices according to customer preferences with 100% e-invoicing compliance in 60+ countries.

Payment Processing: Increase your chances of securing on-time, in-full payments with online payment capabilities.

Cash Application: Accelerate cash posting and gain full visibility over receivables by automatically matching incoming payments to open invoices.

Claims & Deductions: Quickly resolve all customer claims and efficiently manage deductions and disputed amounts while protecting margins.

Collections Management: Improve collections efficiency and reduce DSO by prioritizing accounts, automating follow-ups and centralizing dispute tracking.

Capabilities that empower the Office of the CFO

Global cloud platform

Ensure business continuity and end-to-end connectivity with an integrated platform that spans the entire enterprise.

One interface

Get a 360-degree view over customer and supplier information, and offer a singular user experience.

Custom dashboards

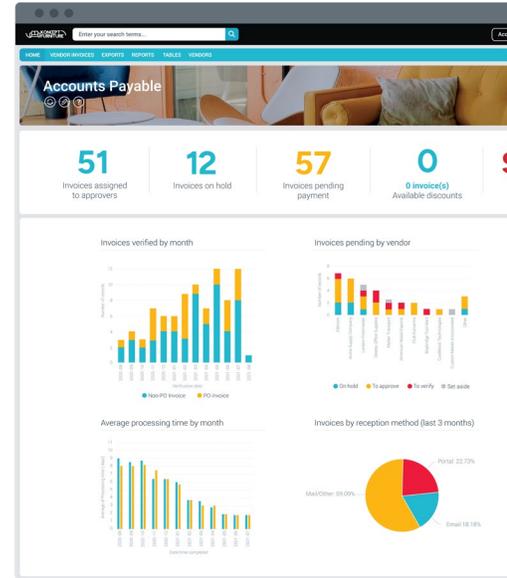

Equip Finance, Supply Chain and Customer Service teams with instant access to powerful analytics and KPIs.

Multi-ERP integration

Achieve simple, secure and simultaneous system integration with Esker's ERP Connectivity suite.

Mobile capabilities

Manage critical business processes while on the go thanks to the Esker Anywhere mobile application.

You're in good company

From small businesses to multinational conglomerates and everything in between, the world's most innovative organizations grow with Esker.
